

Please do not relax the telmarketer laws in the great state of Indiana. I work shift work, the quality of sleep has improved greatly without the telemarketers calling. Now I can sleep uninterrupted. Just try sleeing with 10 to 12 calls coming daily. I will not disconnect my phone while I sleep, for family reasons. The quality of our lives has improved drastically with the end of their harassing call. This law must not be tampered with.

Thank you, Mike Hill
